Every Covid-19 vaccine dose is giving us hope of getting life moving again. Getting the lifesaving jab is the most important thing you can do. Don't delay in getting your vaccine when it is offered to you.

- You're much less likely to be seriously ill with Covid-19, hospitalised or die if you've been vaccinated
- You need two doses for maximum protection for you and those around you
- It's important to keep your vaccination appointments for both doses when they are offered to you
- The vaccine reduces chances of hospitalisation by 85%
- As summer has arrived you may be mixing more with friends and family so make sure you take time to get vaccinated

Find out how to get your vaccine at nhs.uk/covid-vaccination or by phoning 119. If you are eligible but not able to book through the national booking service, you can speak to your GP.
