

## School Improvement Plan 2025 2026– Parent version

The Limpsfield Grange School Improvement Plan 2025 - 2026 outlines our strategic aims for this academic year, which are:

- To create links with researchers and Limpsfield Grange alumni to evaluate outcomes for ex-students.
- To share our WACI curriculum with other institutions.
- To create Limpsfield Grange films for training packages.
- To continue to develop a rich and diverse curriculum offer which meets the changing needs of our student population.
- To continue to focus on developing the reading and spelling skills of all students.
- To further develop trips and visits across the school.
- To investigate how AI can support student learning.
- To enable Limpsfield Grange residential students to represent the school on autism and online forums across the region.
- To continue to improve the internal and external environment of the school.

I am very much looking forward to working in partnership with you all over the coming academic year.
